ATV Manual Tipping Trailer

Carefully balanced, this manual tipping trailer is easy to use. Unlike with manual dump trailers it self empties and there is no need to sweep it out. The tailgate can be used in two ways, letterbox opening or can be folded down. It can also be removed totally from the trailer. Galvanised for longer life and on flotation wheels for land protection.

Length	4' (1220mm)
Width	3' (915mm)
Max Capacity	500kg
